

Table of Contents

If you need debug information, you can specify the following entries in `Config.groovy`:

Listing 1. Logging setup

```
log4j = {  
    ...  
  
    debug 'grails.plugin.springsecurity',  
          'grails.app.controllers.grails.plugin.springsecurity',  
          'grails.app.services.grails.plugin.springsecurity',  
          'org.pac4j',  
          'org.springframework.security'  
  
    ...  
}
```
