Table of Contents

If you need debug information, you can specify the following entries in `Config.groovy`:

Listing 1. Logging setup

```
log4j = {
    ...

    debug  'grails.plugin.springsecurity',
           'grails.app.controllers.grails.plugin.springsecurity',
           'grails.app.services.grails.plugin.springsecurity',
           'org.pac4j',
           'org.springframework.security'

    ...
}
```
